Crowd Control Systems

Loop Crown Economy Posts and Ropes

- **Stylish & Attractive**
- **Unlimited Versatility**
- **Adapts to Any Length**
- **Less Posts are Needed**
- **Efficient & Cost Effective**
- **Indoors / Outdoors**

An attractive, economical crowd control post for indoor and outdoor use designed to be used with weather-proof, twisted polypropylene ropes or plastic chains (sold separately).

Unlike other fixed length rope, strap, rail and chain systems, these posts can be positioned at extended distances, thereby requiring fewer posts to create a barrier which reduces your cost. A single length of rope can be quickly and easily threaded through all of the posts creating a continuous barrier. Ideal for permanent installations and displays, as well as occasional events such as graduations, exhibits, sports events and maintenance projects.

Made of solid aluminum, these posts are beautifully satin polished and protected by Glaro's exclusive baked-on clear coating. The hand spun aluminum base is weighted with solid metal, the underside of which is coated with a baked on rust preventative treatment. In addition, the aluminum shell is machine-rolled under so that only rustproof aluminum ever comes in contact with your floor.

TWISTED POLYPROPYLENE ROPE
1" Diameter with Snap Ends Attached.
Available in Black or Yellow.

PLASTIC CHAIN
8 Size - 2" Plastic Links with Snap Ends Attached.
Available in Black, Yellow or White

PRE-ASSEMBLED ROPES AND CHAINS

PLEASE NOTE: These Ropes and Chains are factory pre-assembled with snap-ends and cannot be looped through the posts as illustrated in these photographs. They must be attached to each post individually. **To create a continuous barrier**, such as the ones shown here, please order the unassembled ropes and snap ends from the chart above.
